Inground Pools Since 1969
 Home Repair Lic. # L010972
 Home Improvement Contractor
 License #13VH01382600

POOL CLOSING: This service consists of the following:

Removal of ladders and handrails and place in your storage area. (Do not store pool chemicals and handrails together over the winter). Winterize filter and pump(s) by removing plugs and baskets. Remove jets and return fittings, blow out lines and plug lines with plugs and gizzmos. Shock pool and add winter algaecide (shock and algaecide are included) for chlorine pools only. Cover pool with pool cover. Salt system chemical kits for winter protection are recommended at an additional cost of \$84.95. Safety cover chemical kits are available for extra protection at an additional cost of \$84.95.

PLEASE READ: POOLS CURRENTLY ON A NON-CHLORINE PROGRAM must follow instructions to bring your pool up to the proper chemical level for winterization per your instruction manual. YOU MUST INDICATE IN WRITING ON THIS FORM AND MAIL BACK, as Nicholas Pools & Supplies **will not be responsible for wrong chemicals being put into your pool.**

PLEASE NOTE: Plugs and gizzmos are not included in closing price. Nicholas Pools will not be responsible for the tightening of safety cover straps over the winter. This is a separate service call. You may purchase coping guards to protect coping and concrete from wind situations. If you have a timer on your filter system, please remove both trippers on the timer beforehand and turn the breaker off.

If you have a mesh safety cover, water level **MUST** be lowered to the bottom of skimmer faceplate to ensure proper winterization, before Nicholas Pools comes out to winterize pool. Remember to add liquid chlorine and algaecide to pool in March / April of next year to help avoid algae build up.

IF ANY OF THE ABOVE ARE NOT DONE OR ACCESS TO YOUR BACKYARD IS NOT AVAILABLE DUE TO LOCKED GATES, NON-PAYMENT OR SAME DAY CANCELLATION, YOU WILL BE RESPONSIBLE FOR A TRIP CHARGE OF \$100 AND YOUR CLOSING WILL HAVE TO BE RESCHEDULED.

If your D.E. Filter was not manually cleaned at the time of the opening, it is strongly recommended to do this now at the closing.

All service is weather permitting
